PROFESSIONAL SUMMARY

Software Developer with 4+ years of professional experience, primarily specializing in Flutter mobile application development, with previous professional experience in Ionic, Angular, and Capacitor. Experienced in developing cross-platform applications for Android and iOS, implementing responsive user interfaces, integrating REST APIs and authentication, developing complex business logic, and working with native device features and third-party services. Hands-on knowledge of full-stack development technologies, including React, Node.js, Express.js, and PostgreSQL, gained through self-directed learning and development projects. Focused on building reliable software solutions that address practical business needs.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, FlutterFlow, Ionic, Angular, Capacitor, Android, iOS

Front-End Development: HTML, CSS, JavaScript, Bootstrap, jQuery, React

Back-End Development: Node.js, Express.js, REST APIs, JSON, Authentication

Database: PostgreSQL, SQL

Architecture & Development: Clean Architecture, MVVM, State Management, API Integration, Performance Optimization

Integrations: Firebase, WooCommerce, RevenueCat, Push Notifications, Google Maps, Payment Integrations

Tools: Git, GitHub, Android Studio, VS Code, Xcode

PROFESSIONAL EXPERIENCE

Flutter Developer | Akodes IT Solutions

May 2023 - September 2026

- Developed and maintained cross-platform mobile applications for Android and iOS using Flutter and Dart.
- Translated product requirements and UI/UX designs into responsive, production-ready mobile experiences.
- Built reusable components and structured application architecture using clean coding practices and state management.
- Integrated REST APIs, authentication, third-party services, and complex business workflows.
- Implemented native device capabilities, including camera, gallery, file handling, push notifications, and other platform features.
- Collaborated with backend developers and stakeholders to integrate, test, debug, and deliver production features.
- Troubleshoot application issues and optimized performance, reliability, and maintainability across devices.

Ionic Developer | Akodes IT Solutions

March 2022 - April 2023

- Developed cross-platform mobile applications using Ionic, Angular, and Capacitor for Android and iOS.
- Converted UI/UX designs into responsive mobile interfaces and integrated REST APIs.
- Implemented application data handling, authentication, forms, state management, native device features, and third-party integrations.
- Troubleshoot application issues and supported testing, maintenance, and delivery across mobile platforms.

Ionic Developer Intern | Akodes IT Solutions

September 2021 - February 2022

- Gained practical experience developing cross-platform mobile applications using Ionic, Angular, and Capacitor.
- Assisted with responsive interface development and REST API integration.
- Worked on application functionality, debugging, testing, and maintenance under supervision.
- Applied foundational frontend development knowledge to mobile application development.

EARLY DEVELOPMENT & SELF-DIRECTED LEARNING

Self-Directed Front-End Development

2019 - August 2021

- Pursued self-directed learning in front-end web development after completing postgraduate studies.
- Developed foundational knowledge of web interfaces, frontend development concepts, and programming fundamentals.
- Built the technical foundation that supported the transition into professional Ionic mobile application development.

SELECTED PROJECTS

Stonk-IT | Flutter | Live on Google Play

- Integrated Financial Modeling Prep APIs for real-time stock and company data.
- Implemented historical chart views for 1-week, 1-month, 1-year, and longer-term performance.
- Built swipeable stock cards, filtering, favorites, animations, and Provider-based state management.

MCS Laboratory | Flutter | Live on Google Play & App Store

- Integrated WordPress/WooCommerce REST APIs with a responsive, Polish-localized mobile interface.
- Implemented WebView-based checkout/payment flows and application business logic.

BareFace | FlutterFlow + Custom Code | Live on Google Play & App Store

- Built selfie capture, AI facial analysis, multilingual flows, and RevenueCat in-app purchases.
- Implemented daily free-generation limits and paid-credit functionality.
- Developed custom image sharing with watermarking and branding, contributing as a solo developer.

EDUCATION

Master in Computer Science (MCS) | Bahauddin Zakariya University, Multan, Pakistan | 2016 - 2018

Bachelor of Science (BSc - 2 Years) | Bahauddin Zakariya University, Multan, Pakistan | 2014 - 2016

PROFESSIONAL DEVELOPMENT

- The Complete Full-Stack Web Development Bootcamp - Dr. Angela Yu | 2026
- Succeed in the Age of AI - Dr. Angela Yu | 2026
